### **Infrastructure Development & Channelizing Investments**

INFRASTRUCTURE - FINANCIAL & INSURANCE SERVICES  
MEDIA ENTERTAINMENT - IT - TELECOM - HRD  
RURAL - SKILLS DEVELOPMENT - EMPLOYMENT

**While Harnessing Domestic Corporate, NRIs / FDI Services**

*Let's together draw a Roadmap for Investment in Punjab for next 10 Years*

NRI's especially of the Punjabi origin have enormously contributed towards the overall socio-economic development of the State of Punjab and particularly upliftment of their native places with their creativity, rich resources & entrepreneurial spirit. Although living abroad they are always keen to do something for their motherland. There are more than 70 lakh NRIs of Punjabi origin constituting more than 33 % of the total Indian Diaspora. A large number of them are professionals, entrepreneurs and businessmen and are looked upon as the vibrant, new face of India that could leverage the country's economic and social development.

The main objective of the conference is to recognize the contribution of the Banks, Insurance and other financial institutions coupled with that of the Indian Diaspora and the domestic corporate to the Indian economy and the role they can play in catapulting the country into higher growth by supporting and promoting the infrastructure, social and educational causes and other allied activities. There are enormous opportunities for NRI professionals, entrepreneurs and businessmen, trade and commercial organizations to get actively involved in the development process of Northern India, particularly Punjab, as well as become mechanisms that allow transfer of their skills, leveraging of contacts, attracting investments, enhancing trade and providing networking and insights into the global market psyche. At the conference, would also be eminent Indian Corporate to explore the possibility of joint collaborations and partnerships.

The conference is expected to come out with useful suggestions for harnessing resources both public and private for infrastructure development which is vital for taking the development on a higher economic trajectory and for progress and prosperity of its people.
